

Agrifirst Ginegar Orchard Mulch

Agrifirst Ginegar Orchard Mulch — wide heavy-duty mulching film for fruit orchards. Long-term weed control, moisture retention for mango, pomegranate, citrus. Agrifirst.

3x healthier

roots with enhanced white root development

2x better

fruit color and quality

4x reduced

labor costs with weed suppression

ABOUT

Wide-Format Orchard Mulching Film for Fruit Trees & Plantation Crops

Agrifirst Ginegar Orchard Mulch is a heavy-duty, wide-format mulching film designed for fruit orchards, plantation crops, and tree-based cultivation. With widths up to 2 meters and enhanced thickness, this film provides long-term weed suppression, moisture conservation, and root zone temperature management around the base of trees — reducing orchard maintenance costs by up to 60%.

DESCRIPTION

Agrifirst Ginegar Orchard Mulch is engineered for India's vast fruit orchard and plantation sector — mango, pomegranate, citrus, guava, apple, dragon fruit, and other tree crops. This heavy-duty, wide-format mulching film provides long-term (2+ seasons) weed suppression around tree bases, eliminating the most labor-intensive and costly operation in orchard management.

Key Benefits

- **Wide Coverage** — Up to 2m width covers the entire tree canopy drip zone, suppressing weeds where they compete most with tree roots
- **Multi-Season Durability** — Heavy-gauge construction with premium UV stabilizers lasts 2+ growing seasons
- **60% Labor Savings** — Eliminates 4–6 rounds of manual weeding per year, the biggest recurring orchard cost
- **Root Zone Moisture** — Prevents surface evaporation, keeping the critical root zone consistently moist
- **Earlier Fruiting** — Better moisture and temperature management promotes faster tree establishment and earlier fruiting
- **Cleaner Operations** — No herbicide contamination in the fruit zone, supporting organic and export-quality production

Technical Specifications

Manufacturer	Ginegar Plastic Products, Israel
Material	LDPE / LLDPE blend — heavy-duty UV stabilized
Thickness	40 / 50 micron
Colors	Silver/Black, Black/Black
Width	1.2m, 1.5m, 2.0m
Length	400m / 500m rolls
Field Life	18–24+ months
Best For	Mango, pomegranate, citrus, guava, apple, dragon fruit, grape, fig, papaya orchards
