

Agrifirst Shade Net (Tape x Tape)

Agrifirst Tape x Tape Shade Net — high-strength woven HDPE, UV-stabilized. 35-90% shade. Best for nethouse, nursery, parking. Buy from Agrifirst India.

3x better

climate control for healthier plants

2x longer

lifespan with 3-year UV stabilization

4x more

adaptability for diverse cultivation needs

ABOUT

Tape x Tape Shade Net — High-Strength Woven Shade for Agriculture & Horticulture

Agrifirst Tape x Tape Shade Net is a high-strength woven HDPE shade net constructed using flat tape yarns in both warp and weft directions. This construction method delivers superior tear resistance, uniform shade distribution, and excellent longevity — making it ideal for nethouse structures, nurseries, parking lots, and agricultural shade applications.

DESCRIPTION

Agrifirst Tape x Tape Shade Net is a premium woven shade net manufactured using flat HDPE tape yarns interlaced in both warp and weft directions. This dual-tape construction creates a strong, stable fabric with uniform openings that provide consistent shade levels — unlike knitted nets that can stretch and distort under wind or weight.

Key Benefits

- **Superior Tear Resistance** — Woven tape construction resists tearing and fraying, even when cut edges are exposed
- **Uniform Shade** — Consistent weave pattern ensures even shade distribution across the covered area
- **Dimensional Stability** — Minimal stretching or sagging compared to knitted alternatives
- **Multiple Shade Options** — Available in 35%, 50%, 75%, and 90% shade factors
- **UV Stabilized** — 5–7 year outdoor life under Indian sun conditions
- **Versatile Colors** — Green, black, white, and silver options for different applications

Technical Specifications

Construction	Woven — flat tape x flat tape (HDPE)
Shade Levels	35%, 50%, 75%, 90%
Colors	Green, Black, White, Silver
UV Life	5–7 years
Available Widths	2m, 3m, 4m, 5m
Available Lengths	50m, 100m rolls
Applications	Nethouse structures, nursery shade, greenhouse internal screens, parking areas, poultry shade
