

Bluelab® Combo Meter

Bluelab® Combo Meter — pH, EC & temperature in one device. Professional 3-in-1 meter for precision farming. Waterproof. Buy from Agrifirst India.

3x more

convenience with all-in-one measurement

2x easier

use with backlit display and no calibration

4x better

portability with battery-powered design

ABOUT

Bluelab® Combo Meter — pH, EC & Temperature in One Professional Instrument

The Bluelab® Combo Meter combines pH, conductivity (EC), and temperature measurement into a single professional handheld instrument — eliminating the need to carry separate meters. This all-in-one tool is the essential companion for serious growers managing nutrient solutions in polyhouse, hydroponic, and precision farming operations.

DESCRIPTION

Bluelab® Combo Meter is a professional-grade 3-in-1 measuring instrument that puts pH, conductivity (EC/TDS), and temperature measurement into a single handheld device. Instead of juggling separate pH and EC meters, the Combo Meter gives you complete nutrient solution analysis with one tool — saving time, reducing errors, and simplifying your measurement workflow.

Key Features

- **3-in-1 Measurement** — pH, EC (or CF/ppm), and temperature from a single device
- **Replaceable pH Probe** — pH electrode is replaceable without buying a new meter
- **Simple Calibration** — 2-point pH calibration with visual indicators
- **Auto Temperature Compensation** — Both pH and EC readings adjusted for temperature
- **Large Backlit Display** — All three readings visible simultaneously
- **Waterproof** — Designed for wet greenhouse environments

Technical Specifications

pH Range	0.0–14.0 pH (±0.1)
EC Range	0–10.0 mS/cm (±2%)
Temperature	0–50°C (±0.5°C)
pH Probe	Replaceable double-junction glass electrode
Display	Large backlit LCD — shows all 3 readings
Waterproof	Yes
Power	AAA batteries
