

Bluelab® Truncheon Nutrient Meter

Bluelab® Truncheon — calibration-free EC/TDS meter. LED bar display, waterproof, lifetime reliability. The grower's classic. Buy from Agrifirst India.

3x easier

nutrient monitoring with auto on/off

4x more

durability with waterproof, tough design

2x faster

readings with no calibration needed

ABOUT

Bluelab® Truncheon — Calibration-Free Nutrient Meter That Lasts Forever

The Bluelab® Truncheon Nutrient Meter is an icon in horticulture — a robust, calibration-free EC/TDS meter with an innovative LED bar-graph display that shows EC, CF, and TDS simultaneously. Just dip the probe end into your nutrient solution and instantly see your nutrient strength. No buttons, no calibration, no maintenance — just reliable readings that never drift.

DESCRIPTION

Bluelab® Truncheon Nutrient Meter is the world's most trusted calibration-free nutrient measuring instrument. For over 30 years, the Truncheon has been the go-to tool for growers who want dead-simple, zero-maintenance nutrient measurement. Dip the probe end into your solution — the LED bar graph instantly lights up showing EC, CF, and ppm values simultaneously.

Key Features

- **Zero Calibration** — Never needs calibrating — accuracy guaranteed from factory to field, forever
- **Triple Scale Display** — Shows EC (mS/cm), CF, and ppm simultaneously on LED bar graph
- **Indestructible Probe** — No glass electrode to break — graphite sensing elements last indefinitely
- **Fully Waterproof** — Survives drops into tanks, splashes, and greenhouse humidity
- **No Buttons** — Automatic operation — just dip and read
- **Auto Temperature Compensation** — Accurate from 5–45°C

Technical Specifications

Measurements	EC: 0.2–3.6 mS/cm CF: 2–36 ppm 500: 100–1800 ppm 700: 140–2520
Display	LED bar graph (triple scale)
Calibration	None required (ever)
Waterproof	Yes
Power	3 × AAA batteries (included)
Length	300mm
