2x stronger

than steel for superior support

75% lighter

for easy handling and installation

3x longer

life with rust-proof durability

ABOUT

Reinforced Plastic Support Stick — Lightweight, Rot-Proof Plant Support

Agrifirst Reinforced Plastic Stick is a durable, rot-proof plant support stake made from reinforced recycled plastic. Unlike bamboo or wooden stakes that rot, harbor pests, and need annual replacement, these plastic sticks last 8–10+ years with zero maintenance — providing consistent, hygienic plant support for tomatoes, capsicum, flowering plants, and crop covers.

DESCRIPTION

Agrifirst Reinforced Plastic Stick is a modern, durable alternative to traditional bamboo and wooden plant support stakes. Made from reinforced recycled plastic, these sticks offer a lifetime of use without rotting, cracking, or harboring soil-borne pathogens — solving the biggest problems with conventional organic support materials.

Key Benefits

- **Rot-Proof** — Never rots, even in constant soil contact and wet conditions
- **10+ Year Life** — One-time investment replaces annual bamboo/wood purchases
- **Pest-Free** — Doesn't harbor termites, borers, or soil-borne pathogens
- **Lightweight** — Easy to handle, transport, and install
- **Consistent Strength** — Uniform manufacturing ensures every stick performs identically
- **Easy to Clean** — Sanitize between crop cycles with simple washing

Technical Specifications

Material	Reinforced recycled plastic
Diameter	8mm / 10mm / 12mm
Length	60cm, 90cm, 120cm, 150cm
Color	Green / Black
UV Resistance	Yes
Applications	Plant support, crop cover hoops, row markers, nursery stakes, flower support
