

## Solar Guard Liquid Shading

Solar Guard Liquid Shading — durable greenhouse shade coating. Rain-resistant, season-long performance. Superior adhesion for polyhouse & glass. Agrifirst India.

**3x greater**

reflectivity for superior crop protection

**2x longer**

polyfilm life with metal separation

**4x better**

coverage with flexible film application

### ABOUT

#### Solar Guard Permanent Liquid Shading — Long-Lasting Shade Coating for Greenhouses

Solar Guard Liquid Shading is a durable, long-lasting greenhouse shading compound that provides consistent shade throughout its application period. Unlike removable compounds, Solar Guard offers superior adhesion and weather resistance — maintaining uniform shade levels even through heavy monsoon rains. Ideal for growers who need reliable, season-long shade without reapplication.

### DESCRIPTION

**Solar Guard Liquid Shading** is a high-durability greenhouse shading compound formulated for growers who need consistent, reliable shade throughout an entire growing season — including through heavy monsoon rains. Solar Guard's advanced adhesion formula bonds firmly to greenhouse surfaces, resisting wash-off from rain while maintaining uniform shade levels from application until deliberate removal.

### Key Benefits

- **Rain-Resistant** — Superior adhesion maintains shade level even through heavy monsoon conditions
- **Season-Long Performance** — Single application provides consistent shade for 4–6 months without touch-up
- **Uniform Shade** — Even coating provides consistent light reduction across the entire greenhouse surface
- **Temperature Control** — Reduces internal temperatures by 4–8°C during hot periods
- **Easy Removal** — Despite durability, can be removed with specialized cleaning agent when shade is no longer needed

### Technical Specifications

Type	Durable liquid shading compound
Application	Spray or brush
Coverage	80–120 m <sup>2</sup> per liter
Durability	4–6 months (season-long)
Rain Resistance	High — withstands heavy monsoon rainfall
Removal	Specialized cleaning agent + pressure washer
Surface Compatibility	PE film, glass, polycarbonate
Packaging	1L, 5L, 20L containers
