efficiency in greenhouse tomato support

ABOUT

Tomato Support Clip — Quick-Attach Stem Holder for Trellised Vine Crops

Agrifirst Tomato Clip (23mm White) is a reusable plastic clip for attaching vine crop stems to trellis twine or support strings. These clips provide firm stem support without damaging plant tissue — faster and less restrictive than tying with string. Essential for commercial polyhouse tomato, capsicum, and cucumber production.

DESCRIPTION

Agrifirst Tomato Clip (23mm White) is a labor-saving plant support accessory that attaches vine crop stems to trellis twine in a single click — replacing the time-consuming task of tying with string. In commercial polyhouse operations growing thousands of plants, these clips save hundreds of labor hours per crop cycle.

Key Features

- **One-Click Attachment** — Snap onto stem and twine simultaneously — 3x faster than string tying
- **Gentle on Plants** — Rounded edges prevent stem damage and girdling
- **Reusable** — UV-stabilized plastic lasts multiple crop cycles
- **23mm Opening** — Fits tomato, capsicum, and cucumber stems at standard growth stages
- **Adjustable Position** — Can be repositioned as the plant grows

Technical Specifications

Material	UV-stabilized polypropylene
Opening	23mm
Color	White
Packaging	500 / 1000 / 2500 per bag
Reusability	5+ crop cycles
