**5x stronger**

hold for long-term weedmat stability

**3x easier**

installation with large surface design

**2x neater**

fitting for a professional finish

### ABOUT

#### UV-Resistant Ground Cover Fixing Nails — Secure Weed Mat Installation

Agrifirst Weedmat Nails are heavy-duty, UV-resistant fasteners designed to securely anchor weed mats, ground covers, and landscape fabrics to the ground. These corrosion-resistant nails with wide flat heads prevent fabric tear-through while holding firmly in all soil types — ensuring your ground cover stays perfectly flat and wrinkle-free for its entire service life.

### DESCRIPTION

**Agrifirst Weedmat Nails** are purpose-built fasteners for anchoring weed mats, ground covers, and agricultural fabrics securely to the ground. Featuring a wide flat head design that distributes pressure across a larger area, these nails hold ground covers in place without tearing through — even under wind uplift and foot traffic.

### Key Features

- **Wide Flat Head** — Prevents puncturing through fabric, distributing load across a larger area for secure hold
- **UV-Resistant Material** — Will not degrade or become brittle from sun exposure
- **Corrosion Resistant** — Performs in wet soil conditions without rust degradation
- **Easy to Install** — Push or hammer into soil — no special tools required
- **Reusable** — Can be removed and reused when repositioning ground covers

### Technical Specifications

<b>Material</b>	Heavy-duty UV-stabilized plastic / galvanized steel
<b>Head Diameter</b>	25–30mm
<b>Nail Length</b>	150mm / 200mm
<b>Packaging</b>	100 / 250 / 500 per pack
<b>Compatible With</b>	All Agrifirst weed mats (90, 100, 130 GSM), mulching films, landscape fabrics
